1. Aims

Our Trust aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the UK data protection law

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the

- UK General Data Protection Regulation (UK GDPR) – the EU GDPR was incorporated into UK legislation, with some amendments, by [The Data Protection, Privacy and Electronic Communications \(Amendments etc\) \(EU Exit\) Regulations 2020](#)
- [Data Protection Act 2018 \(DPA 2018\)](#)

It is based on guidance published by the Information Commissioner’s Office (ICO) on the UK [GDPR](#). It meets the requirements of the [Protection of Freedoms Act 2012](#) when referring to our use of biometric data.

It also reflects the ICO’s guidance for the use of surveillance cameras and personal information.

In addition, this policy complies with our [funding agreement\(s\) and articles of association](#).

3. Definitions

TERM	DEFINITION
Personal data	<p>Any information relating to an identified, or identifiable, living individual.</p> <p>This may include the individual’s:</p> <ul style="list-style-type: none"> ● Name (including initials) ● Address and contact details ● Identification numbers such as NI or passport number ● Location data ● Online identifier, such as a username ● Photographs or video footage <p>It may also include factors specific to the individual’s physical, physiological, genetic, mental, economic, cultural or social identity.</p>
Special categories of personal data	<p>Personal data which is more sensitive and so needs more protection, including information about an individual’s:</p> <ul style="list-style-type: none"> ● Racial or ethnic origin ● Political opinions ● Religious or philosophical beliefs ● Trade union membership ● Genetics

	<ul style="list-style-type: none"> ● Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes ● Health – physical or mental ● Sex life or sexual orientation
Processing	Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying. Processing can be automated or manual.
Data subject	The identified or identifiable individual whose personal data is held or processed.
Data controller	A person or organisation that determines the purposes and the means of processing of personal data.
Data processor	A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.
Personal data breach	A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.
Data Protection Officer (DPO)	A named individual who helps the school or trust protect their data and stay compliant with data protection regulations
Information Commissioner's Office (ICO)	The UK supervisory authority for data protection. They have the responsibility for enforcing the data protection regulations (UK GDPR)
UK General Data Protection Regulation (UK GDPR)	The UK GDPR is the retained EU law version of the General Data Protection Regulation ((EU) 2016/679) (EU GDPR)
GDPR	The Data Protection Act 2018 is the UK's implementation of the General Data Protection. Regulation (GDPR)

4. The data controller

Our Trust processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The Trust is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** and volunteers (paid and unpaid) employed by our Trust, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Board of Trustees

The Board has overall responsibility for ensuring that our Trust complies with all relevant data protection obligations.

5.2 Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the trust processes, and for the ICO.

Our DPO is **EduDataPro** and is contactable via dpo@edudatapro.com.

Internally our data protection lead is:

- Trust - Central MIS Manager
- Schools – MIS Manager

5.3 Chief Executive Officer (CEO)

The Chief Executive Officer acts as the representative of the data controller on a day-to-day basis.

5.4 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the trust of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the UK
 - If there has been a data breach or suspected data breach
 - Whenever they are engaging in a new activity that may affect the privacy rights of individuals
 - If they need help with any contracts or sharing personal data with third parties

6. Data protection principles

The UK GDPR is based on data protection principles that our Trust must comply with. The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes

- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how the Trust aims to comply with these principles.

7. Collecting personal data

7.1 7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the Trust can **fulfil a contract** with the individual, or the individual has asked the Trust to take specific steps before entering into a contract
- The data needs to be processed so that the Trust can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the Trust, as a public authority, can perform a task **in the public interest, or exercise its official authority**
- The data needs to be processed for the **legitimate interests** of the Trust (where the processing is not for any tasks the Trust performs as a public authority) or a third party, provided the individual's rights and freedoms are not overridden
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing under data protection law:

- The individual (or their parent/carer when appropriate in the case of a pupil) has given **explicit consent**
- The data needs to be processed to perform or exercise obligations or rights in relation to **employment, social security or social protection law**
- The data needs to be processed to ensure the **vital interests** of the individual or another person, where the individual is physically or legally incapable of giving consent
- The data has already been made **manifestly public** by the individual
- The data needs to be processed for the establishment, exercise or defence of **legal claims**
- The data needs to be processed for reasons of **substantial public interest** as defined in legislation
- The data needs to be processed for **health or social care purposes**, and the processing is done by, or under the direction of, a health or social work professional or by any other person obliged to confidentiality under law

- The data needs to be processed for **public health reasons**, and the processing is done by, or under the direction of, a health professional or by any other person obliged to confidentiality under law
- The data needs to be processed for archiving purposes, scientific or historical **research purposes**, or statistical purposes, and the processing is in the public interest

For criminal offence data, we will meet both a lawful basis and a condition set out under data protection law. Conditions include:

- The individual (or their parent/carer when appropriate in the case of a pupil) has given consent
- The data needs to be processed to ensure the vital interests of the individual or another person, where the individual is physically or legally incapable of giving consent
- The data has already been made manifestly public by the individual
- The data needs to be processed for or in connection with legal proceedings, to obtain legal advice, or for the establishment, exercise or defence of legal rights
- The data needs to be processed for reasons of substantial public interest as defined in legislation

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

We will always consider the fairness of our data processing. We will ensure we do not handle personal data in ways that individuals would not reasonably expect, or use personal data in ways which have unjustified adverse effects on them.

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

We will keep data accurate and, where necessary, up-to-date. Inaccurate data will be rectified or erased when appropriate.

In addition, when staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the [Trust's record retention schedule](#).

8. Sharing personal data

- We are required to routinely share personal data with our local authority, the Department for Education and other schools or colleges that our pupils go to when leaving us. The law allows us to do this without relying on consent. In addition, we may be required to share personal data with other organisations, agencies or companies for example in situations where: Our suppliers or contractors need data to enable us to provide services to our staff and pupils. When doing this, we will:

- Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
- Establish a contract with the supplier or contractor to ensure the fair and lawful processing of any personal data we share.
- Only share data that the supplier or contractor needs to carry out their service.

We may also share personal data with law enforcement and government bodies where we are legally required to do so.

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

In some circumstances we may request consent before sharing personal data. Where we are required to transfer personal data internationally, we will do so in accordance with UK data protection law.

Further details of how we share data can be found in our privacy notices.

9. Subject access requests and other rights of individuals

9.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the Trust holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- Where relevant, the existence of the right to request rectification, erasure or restriction, or to object to such processing
- The right to lodge a complaint with the ICO or another supervisory authority
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual
- The safeguards provided if the data is being transferred internationally

Subject access requests can be submitted in any form, but we may be able to respond to requests more quickly if they are made in writing and include:

- Name of individual
- Correspondence address
- Contact number and email address

- Details of the information requested

If staff receive a subject access request they must immediately forward it to the DPO.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children over 12 are generally regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at a school in our Trust may not be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3 Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request (or receipt of the additional information needed to confirm identity, where relevant)
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Would include another person's personal data that we can't reasonably anonymise, and we don't have the other person's consent and it would be unreasonable to proceed without it
- Is part of certain sensitive documents, such as those related to crime, immigration, legal proceedings or legal professional privilege, management forecasts, negotiations, confidential references, or exam scripts

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee to cover administrative costs. We will take into account whether the request is repetitive in nature when making this decision.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO or they can seek to enforce their subject access right through the courts.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Object to processing which has been justified on the basis of public interest, official authority or legitimate interests
- Challenge decisions based solely on automated decision making or profiling (i.e. making decisions or evaluating certain things about an individual based on their personal data with no human involvement)
- Be notified of a data breach (in certain circumstances)
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO

10. Biometric recognition systems

Where we use pupils' biometric data as part of an automated biometric recognition system (for example, pupils use finger prints to receive school dinners instead of paying with), we will comply with the requirements of the [Protection of Freedoms Act 2012](#).

Parents/carers will be notified before any biometric recognition system is put in place at a school in our Trust, or before their child first takes part in it. The Trust school will get written consent from at least one parent or carer before we take any biometric data from their child and first process it.

Parents/carers and pupils have the right to choose not to use the Trust school's biometric system(s). We will provide alternative means of accessing the relevant services for those pupils.

Parents/carers and pupils can object to participation in the Trust school's biometric recognition system(s), or withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.

As required by law, if a pupil refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the pupil's parent(s)/carer(s).

Where staff members or other adults use the Trust school's biometric system(s), we will also obtain their consent before they first take part in it, and provide alternative means of accessing the relevant service if they object. Staff and other adults can also withdraw consent at any time, and the trust will delete any relevant data already captured.

11. Surveillance Camera Systems (CCTV)

We use CCTV in various locations around the Trust and school sites to ensure we remain safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to the Trust ICT Manager in the first instance. Also see our [CCTV Procedures and Statement](#) document.

12. Photographs and videos

As part of our Trust school activities, we may take photographs and record images of individuals within our schools.

We will obtain written consent from parents/carers, or pupils aged 18 and over, for photographs and videos to be taken of pupils for communication, marketing and promotional materials.

Where we need parental consent, we will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil. Where we don't need parental consent, we will clearly explain to the pupil how the photograph and/or video will be used.

Any photographs and videos taken by parents/carers at school events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers (or pupils where appropriate) have agreed to this.

Where the school or trust takes photographs and videos, uses may include:

- On the school or trust website, social media accounts, prospectus and other promotional materials, as well as any news articles reported by other media agencies
- On internal displays
- For educational purposes, eg. videos or newsletters that are made in class

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our [Safeguarding policy](#) for more information on our use of photographs and videos.

13. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)

- Completing data protection impact assessments where the Trust's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Appropriate safeguards being put in place if we transfer any personal data outside of the UK, where different data protection laws will apply

Maintaining records of our processing activities, including:

- For the benefit of data subjects, making available the name and contact details of our Trust and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
- For all personal data that we hold, maintaining an internal record of the type of data, type of data subject, how and why we are using the data, any third-party recipients, any transfers outside of the UK, and the safeguards for those, retention periods and how we are keeping the data secure

14. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staff room tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must ensure it is kept secure at all times
- Passwords above specific length and complexity criteria are used to access Trust/school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Staff, pupils, Trustees or governors who store personal information on their personal devices are expected to follow the same security procedures as for trust-owned equipment (see our ICT Acceptable Use Procedure)
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

15. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the Trust's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

16. Personal data breaches

The Trust will make all reasonable endeavours to ensure that there are no personal data breaches.

In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours.

17. Training

All staff and Trustees/governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the Trust's processes make it necessary.

18. Monitoring arrangements

The DPO together with senior trust staff will monitor and review this policy.

This policy will be reviewed annually and shared with the full Board of Trustees.

Appendix 1: Personal data breach procedure

This procedure is based on guidance on personal data breaches produced by the Information Commissioner's Office (ICO).

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO or senior leader
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people
- Staff and trustees will cooperate with the investigation (including allowing access to information and responding to questions). The investigation will not be treated as a disciplinary investigation
- If the breach has occurred or it is considered to be likely this is the case, the DPO will alert the trust data leads
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach. Relevant staff members or data processors should help the DPO with this where necessary, and the DPO should take external advice when required. (See the actions relevant to specific data types at the end of this procedure).
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen before and after the implementation of steps to mitigate the consequences
- The DPO will work out whether the breach must be reported to the ICO. and the individuals affected using the ICO's self-assessment tool
- The DPO will document the decisions (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored in the GDPRiS system
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#), or through its breach report line (03031231113), within 72 hours of the trust's awareness of the breach. . As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned

- If all the above details are not yet known, the DPO will report as much as they can within 72 hours of the trust's awareness of the breach. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- Where the trust is required to communicate with individuals whose personal data has been breached, the DPO will tell them in writing. This notification will set out:
 - A description, in clear and plain language, of the nature of the personal data breach
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will consider, in light of the investigation and any engagement with affected individuals, whether to notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the Trust's GDPRiS system.

The DPO and CEO or Trust COO will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Example actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach. We will review the effectiveness of these actions and amend them as necessary after any data breach.

- Investigate Trust systems to confirm the source of the breach.
- Interview staff and pupils to investigate the reason for the breach. (eg. malicious or accidental)
- Contact recipients of data and request that the data in question is deleted, and not shared, published or replicated, and evidence of this action is provided (eg. screenshot of deletion)
- Attempt to remotely wipe a lost or stolen Trust/school phone or other device
- Log requests with internet based providers to remove copies of any breached data.
- Change login credentials for any compromised accounts
- Document actions and outcomes.

Appendix 2: Appropriate Policy Document (APD)

Our processing of special categories of personal data and criminal offence data

As part of our Trust's functions, we process special category data and criminal offence data in accordance with the requirements of Article 9 and 10 of the UK General Data Protection Regulation ('UK GDPR') and Schedule 1 of the Data Protection Act 2018 ('DPA 2018').

Special category data

Special category data is defined at Article 9 UK GDPR as personal data revealing:

- Racial or ethnic origin;
- Political opinions;
- Religious or philosophical beliefs;
- Trade union membership;
- Genetic data;
- Biometric data for the purpose of uniquely identifying a natural person;
- Data concerning health; or
- Data concerning a natural person's sex life or sexual orientation

It is also important to be aware that some of the [nine protected characteristics outlined in the Equality Act 2010](#) are classified as special category data. These include **race**, **religion** or **belief**, and **sexual orientation**. They may also include **disability**, **pregnancy**, and **gender reassignment** in so far as they may reveal information about a person's **health**.

Criminal conviction data

Article 10 UK GDPR covers processing in relation to criminal convictions and offences or related security measures. In addition, section 11(2) of the DPA 2018 specifically confirms that this includes personal data relating to the alleged commission of offences or proceedings for an offence committed or alleged to have been committed, including sentencing. This is collectively referred to as 'criminal offence data'.

This policy document

Some of the Schedule 1 conditions for processing special category and criminal offence data require us to have an Appropriate Policy Document ('APD') in place, setting out and explaining our procedures for securing compliance with the principles in Article 5 and policies regarding the retention and erasure of such personal data.

This document explains our processing and satisfies the requirements of Schedule 1, Part 4 of the DPA 2018.

In addition, it provides some further information about our processing of special category and criminal offence data where a policy document isn't a specific requirement. The information supplements our privacy notices which are available on the school or trust website.

Conditions for processing special category and criminal offence data

We process special categories of personal data under the following UK GDPR Articles:

1. Article 9(2)(b) – where processing is necessary for the purposes of performing or exercising obligations or rights which are imposed or conferred by law on the trust or the data subject in connection with **employment**, social security or social protection.

Examples include our processing of staff sickness absences.

2. Article 9(2)(g) - reasons of **substantial public interest**.

The trust is a public body. Our processing of personal data in this context is for the purposes of substantial public interest and is necessary for the carrying out of our role.

An example of this processing would include sharing special category data with the DfE when required, for example as part of the school census.

3. Article 9(2)(j) – for **research** purposes in the public interest.

The relevant purpose we rely on is Schedule 1 Part 1 paragraph 4 – research.

An example of our processing is working with universities and the Department of Education to provide data for research purposes to help improve UK schools and education.

4. Article 9(2)(h) – the treatment or the **management of health**.

Examples include our processing of data received from an NHS professional or other healthcare worker about one of our pupils.

5. Article 9(2)(i) – for reasons of public interest in the area of **public health**.

Examples include our sharing data about our staff or pupils with the NHS in the case of a pandemic.

6. Article 9(2)(a) – **explicit consent**

In circumstances where we seek consent, we make sure that the consent is unambiguous and for one or more specified purposes, is given by an affirmative action and is recorded as the condition for processing.

Examples of our processing include information about student or staff dietary requirements, allergies and other health information that we require to look after the wellbeing of our pupils and workforce.

When we ask for ethnicity (requested by the DfE for school census returns) we make it clear that providing it is optional and by providing it the data subject (or their parent/carer) is consenting for it to be shared with the DfE.

7. Article 9(2)(c) – where processing is necessary to protect the **vital interests** of the data subject or of another natural person.

An example of our processing would be using health information about a student or member of staff in a medical emergency.

We process criminal offence data under Article 10 of the UK GDPR

Examples of our processing of criminal offence data include pre-employment checks (DBS, barred list) and declarations by a member of the trust workforce in line with contractual or safeguarding obligations.

Processing which requires an Appropriate Policy Document

Almost all of the substantial public interest conditions in Schedule 1 Part 2 of the DPA 2018, plus the condition for processing employment, social security and social protection data, require an APD (see Schedule 1 paragraphs 1 and 5).

This section of the policy is the APD for the school. It demonstrates that the processing of special category ('SC') and criminal offence ('CO') data based on these specific Schedule 1 conditions is compliant with the requirements of the UK GDPR Article 5 principles. In particular, it outlines our retention policies with respect to this data.

Description of data processed

- Health and medical data - workforce and pupils
- Ethnicity - pupils and workforce
- Biometric data (fingerprint) for cashless catering purposes
- Criminal records - DBS checks for all members of the school workforce (paid and unpaid)

Further information about this processing can be found in our privacy notices.

We also maintain a record of our processing activities in accordance with Article 30 of the UK GDPR.

Schedule 1 conditions for processing

Special category data

We process SC data for the following purposes in Part 1 of Schedule 1:

- **Paragraph 1(1)** employment, social security and social protection.

We process SC data for the following purposes in Part 2 of Schedule 1. All processing is for the first listed purpose and might also be for others dependent on the context:

- **Paragraph 6(1) and (2)(a)** Statutory etc and government purposes
- **Paragraph 8(1) and (2)** Equality of opportunity or treatment
- **Paragraph 18(1)** Safeguarding of children and of individuals at risk

Criminal offence data

We process criminal offence data for the following purposes in parts 1 and 2 of Schedule 1:

- **Paragraph 1** – employment, social security and social protection

Procedures for ensuring compliance with the principles

Accountability principle

We have put in place appropriate technical and organisational measures to meet the requirements of accountability. These include:

- The appointment of a data protection officer who reports directly to our highest management level.
- Taking a 'data protection by design and default' approach to our activities.
- Maintaining documentation of our processing activities.
- Adopting and implementing data protection policies and ensuring we have written contracts in place with our data processors.
- Implementing appropriate security measures in relation to the personal data we process.
- Carrying out data protection impact assessments for our high-risk processing.

We regularly review our accountability measures and update or amend them when required.

Principle (a): lawfulness, fairness and transparency

Processing personal data must be lawful, fair and transparent. It is only lawful if and to the extent it is based on law and either the data subject has given their consent for the processing, or the processing meets at least one of the conditions in Schedule 1.

We provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notice, workforce privacy notice and this policy document.

Our processing for purposes of substantial public interest is necessary to function as a trust under the Education Act 2005

Our processing for the purposes of employment relates to our obligations as an employer.

We also process special category personal data to comply with other obligations imposed on the trust by the Department for Education or our local authority.

Principle (b): purpose limitation

We process personal data for the purposes explained above when the processing is necessary for us to fulfil our statutory functions as a trust

If we are sharing data with another controller, we will document that they are authorised by law to process the data for their purpose.

We will not process personal data for purposes incompatible with the original purpose it was collected for.

Principle (c): data minimisation

We collect personal data necessary for the relevant purposes and ensure it is not excessive. The information we process is necessary for and proportionate to our purposes. Where personal data is provided to us or obtained by us, but is not relevant to our stated purposes, we will erase it.

Principle (d): accuracy

Where we become aware that personal data is inaccurate or out of date, having regard to the purpose for which it is being processed, we will take every reasonable step to ensure that data is erased or rectified without delay. If we decide not to either erase or rectify it, for example because the lawful basis we rely on to process the data means these rights don't apply, we will document our decision.

Principle (e): storage limitation

All special category data processed by us for the purpose of employment or substantial public interest is retained for the periods set out in our retention schedule

We determine the retention period for this data based on our legal obligations and the necessity of its retention for our business needs. Our retention schedule is reviewed regularly and updated when necessary.

Principle (f): integrity and confidentiality (security)

Electronic information is processed within our secure network. Paper copies of personal data are kept locked in filing cabinets in locked offices.

Our electronic systems and physical storage have appropriate access controls applied and only relevant staff have access to the files.

The systems we use to process personal data allow us to erase or update personal data at any point in time where appropriate.

Retention and erasure policies

Our retention and erasure practices are set out in our retention schedule which is available on request from the school office

APD review date

This policy will be retained for the duration of our processing and for a minimum of 6 months after processing ceases.

This policy will be reviewed **annually** or revised more frequently if necessary.

Additional special category processing

We process special category personal data in other instances where it is not a requirement to keep an appropriate policy document. Our processing of such data respects the rights and interests of the data subjects. We provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notice and workforce privacy notice.
